

MP-D SERIES

FIBER LASER CUTTING MACHINE

The MP series is the ideal economical machine for a variety of tube types and thicknesses laser cutting.

The MP series can easily operated 24/7 with great production with automatic loading and unloading system, which can achieve better performance with low cost and high benefit.

Variety Shapes of Tubes Can Be Machined
Ideal Economical Solution for Laser Tube Cutting
Auto-Loading and Unloading

| | |
|-------------------------|-----------------------------|
| Laser resonator | Fiber Laser |
| Power(W) | 1000-3000 |
| Model | 6018D |
| Tube diameter(mm) | Φ 20-180 □ 20-130mm |
| Maximum tube length(mm) | 6200 |
| Max. path weight(kg/m) | 17 |
